

A future free from the  
fear of bowel disease

## Welcome to the August Update!

Whilst August is usually a quiet month in the world of fundraising due to the summer holidays, we have been pretty busy this month!

### Young people from the NCS project support St Mark's Hospital Foundation!

Over 50 young people from the NCS project gave up their summer holiday to raise awareness for St Mark's Hospital Foundation. They planned and executed a number of fundraising and awareness activities in the community raising over **£1,400 and counting!**

Click here to [find out more](#)

### Wash for Wonga

In a bid to cool down following the heatwave, volunteers and Foundation staff got stuck in with a car wash outside the front of St Mark's Hospital. We would like to thank the facilities department and Apcoa for supporting us with this

## Pop by and say hello!

For those who visit the hospital often, you might have noticed our Information Desk outside the Outpatients waiting room. We have a fantastic team of volunteers who man the desk on a regular basis providing information, merchandise for sale and updates of our upcoming events! - They are also experts on the closest toilets and coffee stations :)

Throughout August they raised a fantastic **£312.43** !

Interested in volunteering here?

Register your interest [here](#)

## Congratulations!

Two of our fantastic research fellows here at St Mark's have secured a Research Fellowship from the Royal College of Surgeons.

Congratulations Anisha and Roshani!
