

In this year's seasonal appeal, we highlight the work and patient impact of some of St Mark's specialist teams. Multidisciplinary team working across the hospital's specialist units enables St Mark's to deliver the most effective care to its patients. This has been challenged during the pandemic as the teams have been operating across two hospital sites, however, they have worked hard to stay connected to maintain excellence in patient care.

This year, we are excited to share that matched funding donations of £23,500 have been received from a group of long-term supporters of the Foundation. This means that other donations received up to the value of this matched funding amount will be doubled.

If you gift aid your donation, the UK Government will boost it by 25%, and we will then double the total amount! **Please do not forget to 'tick the box' if you are gift aid eligible to make your match go even further.** If you are not eligible, we would still double your donation!

We hope you will support the appeal knowing that, this seasonal period, your donation could be doubled to have twice the impact for St Mark's. Thank you.

From the entire team at St Mark's Hospital Foundation, we wish you and your loved ones a happy and healthy festive season 🎄

During the Covid-19 pandemic, St Mark's specialist teams have been delivering clinical services from two hospital sites. We are proud that, despite this challenge, they have shown even greater solidarity. By maintaining connectedness, they continue to put our patients first.

PROFESSOR OMAR FAIZ & MISS CAROLYNNE VAIZEY
CONSULTANT SURGEONS & JOINT DIVISIONAL CLINICAL DIRECTORS,
ST MARK'S HOSPITAL

St Mark's was my last hope for living, they take on cases when nobody else can. Without my specialist cancer nurses I would have felt totally alone, they were a lifeline for me.

NATALIE

My team is my safety blanket, always there to get me through a flare up, a hospital stay and answer my questions. I'm so grateful.

ANDREA

Thanks to St Mark's, I have enjoyed thirty bonus years of happy marriage and experienced the joy of seeing different generations of my family grow up in good health.

HILARY

I've had a long journey with my health, including misdiagnoses. Being referred to St Mark's was the start of my journey back to good health. The IRU has given me back my life.
