

How to set up a Facebook Fundraiser

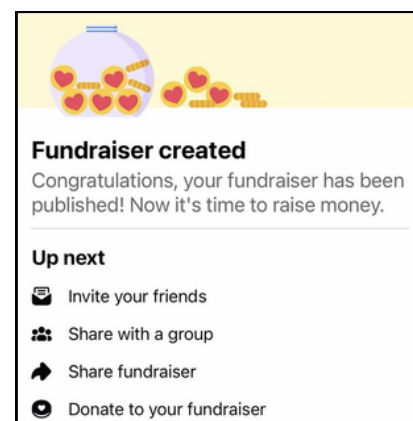

1. Log in to Facebook.
2. Type “fundraisers” into the main search bar and click **Fundraisers**.
3. Click the blue button labelled **+ Raise Money**.
4. Search for **St Mark’s Hospital Foundation** and click on the charity when it appears.

5. Complete the **Fundraiser Details** page, including the fundraiser title and description, the date, and your fundraising target.

Top Tip: In the fundraiser description, include your personal or emotional connection to St Mark’s Hospital Foundation. Sharing why this cause matters to you is the best way to encourage your networks to support our vision of a future free from the fear of bowel disease.

6. Click **Create**.
7. Finally, you can invite your friends to donate, share your fundraising link to your feed, or donate yourself.
8. Congratulations, your fundraiser is now live!

Need help with fundraising?

We’re here for you from day one.
